## VISITORS INTO SCHOOL

We are currently limiting visitors to school and arranging necessary meetings with parents via Teams. If you do need to come into school can we please ask that you wear a face covering to protect our pupils and our staff from the spread of Covid -19.

## HEAD TEACHER'S MESSAGE – COVID 19

**When an individual develops COVID-19 symptoms or has a positive test**

Pupils and other adults should follow public health advice on when to self-isolate and what to do. They should not come into school if they have symptoms, have had a positive LFD result or other reasons requiring them to stay at home due to the risk of them passing on COVID-19 (for example, they are required to quarantine).

If a pupil in our school develops COVID-19 symptoms, however mild, we will ask that you collect them.

**The main symptoms of coronavirus (COVID-19) are:**

- a high temperature – this means you feel hot to touch on your chest or back (you do not need to measure your temperature)
- a new, continuous cough – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)
- a loss or change to your sense of smell or taste – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal

**Week commencing: Monday 10<sup>th</sup> January 2022**

## **Confirmatory PCR tests to be temporarily suspended for positive lateral flow device (LFD) test results**

Confirmatory PCR tests following a positive lateral flow device (LFD) test result are to be temporarily suspended from Tuesday 11 January 2022. This will mean that anyone who receives a positive LFD test result will be required to self-isolate immediately and will not be required to take a confirmatory PCR test.

## **Self-isolation**

The self-isolation advice for people with coronavirus (COVID-19) has changed. It is now possible to end self-isolation after 7 days, following 2 negative LFD tests taken 24 hours apart. You should not take an LFD test before the sixth day of your isolation period, and you should only end your self-isolation after you have had 2 consecutive negative LFD tests - which should be taken at least 24 hours apart. You should stop testing after you have had 2 consecutive negative test results. Asymptomatic testing should then resume as normal (per pre exposure).

## **Close Contacts**

Close contacts will be identified via NHS Test and Trace. Schools may be contacted in exceptional cases to identify close contacts, as currently happens in managing other infectious diseases. We will continue to have a role in working with health protection teams in the case of a local outbreak. All close contacts should undertake a LFD daily for 7 days having been identified as a close contact with Day 1 being the day after the close contact with the infected individual (with the exception of those aged under 5).

## **SAFE AND CONSIDERATE PARKING**

We would like to remind parents again about the importance of parking considerately on Clarence Road. Please do not park on the yellow lines when parking restrictions are in force. They are there for the safety of our children and you. We have also had a request from local residents that you do not block their driveways.

Week commencing: Monday 10<sup>th</sup> January 2022
