### Handwriting:

This week we are continuing to work through the set 1 letter family (c, o, a, d, g, f, s, q, e)

Remember:

- To hold your pencil/pen correctly.
- To sit on a chair and a desk with a straight back whilst practising your handwriting.

Begin with each letter individually. When you feel very confident and are forming the letter correctly and consistently, then have a go at the joining pattern (see model below).

## All about Autumn

Autumn is one of the four seasons; it is the season that comes after summer. Autumn begins in September and finishes in November.

Pumpkin patch

**What happens to the animals?**

Hedgehogs hibernate through autumn and winter. They collect lots of berries and eat them all before rolling themselves up tightly into a ball and falling asleep.

During autumn, squirrels will go out to collect nuts and acorns. They dig a hole in the ground and store their supply of food.

Geese fly south for the winter to find a warmer place to live, and fly north again for the spring.

**What foods are harvested?**

During autumn, many foods are harvested. Foods such as pumpkins, carrots, cauliflower, sweetcorn and apples are harvested in the autumn.

**What is celebrated in autumn?**

On 31st October, many people around the world celebrate Halloween. Children dress up in costumes and pumpkins are carved into silly or scary faces that are lit up with candles.

Bonfire Night is celebrated on 5th November. This is usually celebrated by having a bonfire and watching fireworks with friends and family.

## New neighbours

1. Some new numbers are moving into the street!  
There is going to be a new number between every pair of numbers already living on the street.
2. Use the 1-9 digit cards to make the new numbers.  
You can only use a digit card once. For example, you could use two cards to create the number 27 and this could go between 20 and 30.

3. Can you use the digit cards to create four numbers so that every house has a new neighbour?  
There should be one new number between every pair of neighbouring houses.

### Challenge

Can you make a 10 to 100 street? Use two sets of 1-9 digit cards to make a new number between every neighbouring pair of multiples of 10.

PDW – this week we are learning about calling the emergency services. Listen to the videos below and discuss with your family what you would do in an emergency. Do you know your address? Do you know which phones are in your house?

DI What is a join?  
A join is to link or connect something.

Can you think of any examples?

Soon we will be making our own boats.

Before we make them it is important that we understand which materials work best in water.

We also need to consider joins work best in water too.

Do you think tape will work well in water?

Do you think glue stick glue will work well in water?

Do you think PVA glue will work well in water?

Do you think elastic bands will work well in water?

I'm going to use \_\_\_\_\_ for my boat.
