SAFEGUARDING

A message from NHS England

NHS England are urging parents to check that their children are up to date with their MMR (Measles, Mumps and Rubella) vaccinations in the wake of measles cases rising across the country. Childhood vaccination rates have fallen over the past ten years and this week statistics show that over 102,000 children aged four and five years old starting in reception are not protected against catching measles, mumps, and rubella. If you are unsure if you or your child are up to date, check your child's red book or GP records and make an appointment to catch up any missed doses.

READING TO OUR CHILDREN

The National Literacy Trust tells us, 'there can be few things as powerful as regularly reading to a young child. It has astonishing benefits for children: comfort and reassurance, confidence and security, relaxation, happiness and fun. Giving a child time and full attention when reading them a story tells them they matter. It builds self-esteem, vocabulary, feeds imagination and even improves their sleeping patterns. Yet fewer than half of 0–2-year-olds are read to every day or nearly every day by their parents'.

“By starting the journey of building a lifelong love of reading for pleasure, parents are giving their child the opportunity to be the best they can be: children who read for pleasure do better in a wide range of subjects at school and it also positively impacts children’s wellbeing”.
