CATCH IT, BIN IT, KILL IT

CATCH IT 

Germs spread easily. Always carry tissues and use them to catch your cough or sneeze.

BIN IT 

Germs can live for several hours on tissues. Dispose of your tissue as soon as possible.

KILL IT 

Hands can transfer germs to every surface you touch. Clean your hands as soon as you can.

During the winter months children are more susceptible to various coughs, cold and viral infections. With this in mind, please can we remind all parents that two of the most effective ways of limiting the spread of bacteria are **hand washing** and using tissues to ‘**catch it, bin it, kill it**’.
